

Ronnarit Watanyootakorn

Front-End Web Developer

Self-taught front end developer who is able to realize projects from the ground up. I am well-versed in all key languages. I am able to design, code and deploy in an organized and efficient manner.

As a manufacturing engineer at an automotive company, a server and a manager of a restaurant. I had a lot of opportunities to develop my soft skill such as teamwork, problem-solving, communication, organization, creativity, and adaptability. I believe these would serve me and my employer in the future.
